### Course Description

From domestic terrorists and serial killers to troubled students and homicidal exes, violent people are living right here among us. In this workshop, you will learn how to identify threats through body language analysis as you observe the visual cues, characteristics, and behaviors needed to identify the most dangerous people in our midst.

World-renowned body language expert Dr. Lillian Glass shares with you the same quick and easy approach she uses to unmask signals of deception through videotapes and photos of prominent celebrities, sports figures, criminals, politicians and world leaders. You will learn to see the exact moments they are engaged in deception.

### About the FBI's InfraGard Members Alliance

InfraGard is a free national education and information sharing program created by and between the Federal Bureau of Investigation (FBI) and the private sector. Our objectives include the mitigating of local, state and national vulnerabilities which criminals and terrorists might attempt to exploit, providing increased protection against criminal activities found in our communities, businesses, and personal lives. Our organization is comprised of free training by industry subject matter experts and information sharing with law enforcement.
